

# The Granpa Cratchet Sponsor Sign Guide

## For Granpa's Puppetmobile™

The best sign is what sign shops call a banana sign. Print two signs 24" by 36" and we'll set them back to back on top of the mobile.

This puts your sponsor's name and logo up high so they can be seen from a distance and it also let's crowds see them from two directions.

Your Granpa Puppetmobile sign is put on top that way when people stand around the mobile to talk to Granpa they don't block the sign.

The sign can be anywhere from 36 to 48" long and we suggest 20 to 24" high.

We'll drill holes and wire tie it to the top of the mobile when we arrive.

Here's an example of we put a sponsor sign 24" high by 30" wide in front and back of our already mounted show times sign. Very visual and the sponsor was very happy.

Here's an example of a 24" by 48" sign on top of one of our mobiles. Nice visibility!
